Thailand Institute of Packaging and Recycling Management for Sustainable Environment (TIPMSE)	Collaboration on national policies and regulations related to sustainability and their business impact	Thailand Institute of Packaging and Recycling Management for Sustainable Environment (TIPMSE) is an organization founded by corporate members and associations under Federation of Thai Industries. As a representative of Private Sectors, TIPMSE works closely with the Pollution Control Department to develop regulations and mechanisms aimed at reducing the amount of used packaging waste nationwide. The network promotes appropriate management system for used packaging and recycled materials. By ensuring packaging waste is managed and recycled effectively, enabling circular economy, this helps reduce emissions associated in a packaging lifecycle. Visit: https://tipmse.fti.or.th/ for more information.	TVO’s representative was honored to join as an advisor to TIPMSE to provide input and recommendations on the development of the Extended Producer Responsibility (EPR) law, which aims to address waste issues and promote recycling at the industrial level. The representative offered advice on improving and developing the law to enhance its effectiveness in reducing environmental impact and encouraging producers' participation in sustainable waste management processes.	100,000
